| Name:	**Kiran Rathi**
Practical No:	7
Practical Aim:	find greatest of three numbers
Section & Batch:	C - C2 roll no -46

Code :

```
43              />
44
45              <p>Third number</p>
46              <input
47                  type="number"
48                  value={c}
49                  onChange={(e) => setC(parseInt(e.target.value))}
50              />
51
52
53              <button onClick={()=> {gof3(a,b,c)}}>Find Greatest of Three</button>
54              {d !== null && <p>Greatest Number: {d}</p>}
55
56          </div>
57      );
58  }
59
```

```
cws > src > JS App.js > ⊗ App
1   import './App.css';
2   import Gof3 from './Greatestof3nos';
3
4
5
6   function App() {
7     return (
8       <>
9       <Gof3/>
10
11      </>
12    );
13  }
14
15  export default App;
16
```

Output:

React App   ✕   Practical 1 Submiss ✕   Template

← → C ⌂ ⓘ localhost:3000

First number

9

Second numeber

8

Third number

5   Find Greatest of Three

Greatest Number: 9
